One fine morning ; a man was polishing his new dream-car during when his four-years old son picked up a stone and scratched lines on the side of the car. The man burst into anger at it. He took the child's hand into his arm and hit it many times not realizing that he was using an iron wrench. It injured the child severely causing multi-fractures and resulted in losing all his figures. In the hospital ; the child looked at his father with painful eyes and asked : "Dad when will my figures grow back ?" This hurt the man very much and rendered him speechless. He went back to his car and kicked it many times. In sheer repentance and agony he sat by the side of the car and started to look at it in vain. Suddenly his notice fell on the scratched lines that read : " I LOVE YOU DAD". Unable to console and more the man committed suicide.

To have fascination towards good and valued possessions is a common tendency. But its value should not be compared to the value of human life. God has created human being to be loved and things to be used. Show of materialistic possession is on increase in the society in a competitive way. Those who are overpowered by such fascination are often blind to human senses amy end up with tragic eventuality !
