

A Few Words Remembering My School

□ Purba Purkayastha (Rakshit)
Ex-Student of Kamakhya Vidyalaya

It is a great pleasure to know that Kamakhya Vidyalaya in Guwahati, Assam has successfully completed fifty years and is going to celebrate its Golden Jubilee. On this auspicious occasion I wish all the success from the depth of my heart. Since its inception, the School has made a tireless endeavour to be one of the best among other schools at Pandu-Maligaon area. The School has produced many a doctors, engineers, teachers and other professionals who have proved their abilities in various fields. If not a big shot, me, too have tried my best to build up my career according to my choice. I feel proud of being a student of this School which has provided me a lot of things more than I can mention. The School days are the golden era in my life. Even now, when I teach my students, it reminds me of my school days when I was a learner, Personally, I still prefer to be a learner than to deliver lectures.

In the year 1986 I was admitted in this School in class V and I left the school in the year 1992 along with passing the Madhyamik Examination. I owe my greatness to all my teachers as well as mentors without whose sincere teaching and dedication I would not have been what I am today. Along with imparting education our teachers also taught us how to maintain discipline in every spheres of life.

Apart from academics, emphasis was always given on building up character and manners which I think present generation pupils lack to a great extent. Now a days most of the young stars never give importance to values and ideals. But when we were students the basic values of life were always taught to us with great care.

Staying far away from Assam I don't have the exact idea of the present scenario of the School. But I have the conviction that it still holds a prestigious position.

I express my gratitude to Sri Anil Shome Sir whose knowledge of School administration and teaching inspired all of us. Even today I remember some special days of my School such as - Annual Day, Annual Sports, Saraswati Puja,

and of course publishing School Magazines. Our teachers always encouraged us to do all these co-curricular activities. Needless to say, wherever I got the appointment of a teacher I tried to find out the atmosphere of my School whether it is in Nagpur, Maharashtra (here I was appointed as a PGT in K.V.) or at Chinsurah (my present School) I would like to convey my sincere regards to all the teachers who have kindled in me the passion to become a teacher, the Maker of the nation.

Thanks, my teachers, I remember all of you. Hope you too haven't forgotten me. My message to all the present students :

Respect your teachers. Listen to them. Study hard. Surely, you will be successful in every aspect of your life.
